10-YEAR LIMITED WARRANTY

- 5852 Lumen, Innovative 48-inch Vapor-Tight LED Fixture, crafted to deliver dynamic illumination across three distinct color temperatures.
- Robust, sealed design for moisture and dust resistance, ideal for carwash, canopy and outdoor applications at 5000k
- Ideal for kitchen installations at 4000k (daylight), for food prep areas and 3500k (warm white) for living spaces.
- All three qualities of illumination can be effortlessly accessed through a user-friendly sliding switch integrated into the fixture.
- The wattage can be set before installation at 18, 28 or 44 Watts, setting the light output to between 2500 and 5852 Lumens.
- All fixtures are serially numbered to ensure warranty coverage.
