

Turtle Friendly

ILLUMACORP

THE TURTLEBUDDY

Introducing our revolutionary Turtle-Friendly Light Fixture, designed with the utmost consideration for our beloved marine reptiles. Crafted to minimize light pollution and have no impact on nesting and hatchling sea turtles, this innovative fixture combines eco-conscious technology with a sleek, modern design. The wavelength of light output from the fixture is not seen by the turtles.

Low Energy Consumption

Our Turtle-Friendly Light Fixture not only champions environmental conservation but also boasts impressive energy efficiency. Designed with cutting-edge technology, this fixture is engineered to be incredibly energy-conscious, making it a sustainable choice for both the environment and your wallet.

Specifications

The 5200 step light is specially designed to provide step illumination without interfering with the migratory habits of new-born turtles.

- **Dimensions:** 3" by 8" overall; recessed box is 2" x 6" x 1-3/4" deep.
- **Materials:** All components, louver, face plate and back box are aluminum with a 1/8" Polycarbonate lens.
- **Finish:** Highly durable powder coat applied over a primer. Black is standard.
- **Light Source:** 12 Surface-mount LEDs, 590Nm light output on aluminum-backed circuit board, powered by 120 volt driver.
- **Power:** 120 volt power is required.
Approximate current draw is 10 watts on 120 volts.

CAT #5200
